This change record will transfer \$154.9 in General Fund resulting from Senate HB 75 and HB 76 from the Miscellaneous line item to restore the majority of program reductions as indicated in the original FY04 GF Decrement change record. Funding for PCN 11-1005 will not be restored, and that position will remain transferred to the Special Projects component. That transaction occurred in the FY04 Governor Request. Additionally, the original \$30.0 reduction in travel will be restored by \$16.1, leaving a net travel reduction of \$13.9.

PCN 11-1693 is a Fishery Biologist II in the Sitka office. This position is currently funded for 11 months and a request for a status change to full time is warranted. Additional funding for one month is available in the federal Anadromous Salmon Grant, Troll Management sub-task. Increasing fishing effort and changes to that fishery will require more intensive management during the winter months.

This change record will transfer \$189.5 in General Fund resulting from Senate HB 75 and HB 76 from the miscellaneous line item to restore the majority of program reductions as indicated in the Governor's original FY04 budget. PCN 11-4018 will be restored in the Management Plan to allow the division to provide six months of funding from this component. Another six months of funding will come from the Fisheries Development component. In addition, the lake fertilization project at Leisure Lake, as indicated in the original decrement, will not be restored, as well as funding for a graduate student. The division will reduce \$10.0 to PCN 11-1649, a Fish and Wildlife Technician III, cutting back shellfish monitoring and assessment activities in Prince William Sound by approximately one third.

1004 Gen Fund	-498.0	The Anchorage administrative unit is comprised of 10 positions that provide a full range of support to both Central and AYK Region Fisheries Management components. Historically, supervision of the Anchorage Administrative Manager I was handled by a position in Juneau Headquarters and the entire unit was funded in the Headquarters Fisheries Management component. This transfer of general funds to both regions is being requested to facilitate supervision and management of the administrative unit. Because the PCNs will be funded by both components, including some federal funds in the Special Projects component, the 10 PCNs are being transferred out by a separate change record to the Special Projects component where they'll be funded by a RSA. Funding for the RSA will be from the contractual line of each region's component, therefore, the general funds supporting personal services will be transferred to the contractual line. Likewise, federal funding for these PCNs will also be requested in the contractual line so the RSA can be completely funded.

Prior to this time, supervision of the Administrative Manager I was from a position in Juneau Headquarters and funding was contained in the Headquarters Fisheries Management component. Funding for these positions is being transferred to the Central and AYK Region components. Because the PCNs will be funded by both components, including some federal funds in the Special Projects component, the nine PCNs (one is already in Special Projects) are being transferred out by this change record to the Special Projects component where they'll be funded by RSA. The nine PCNs being transferred are 11-1038, 11-1054; 11-1284; 11-1292, 11-1301, 11-1839, 11-5026, 11-5045, and 11-5189.

A tenth position is also being transferred in the change record. PCN 11-5155 is an Economist II that had been split funded between general fund and federal funds. Starting in FY04, this position is now fully funded through a federal grant, and a transfer out to the Special Projects component is necessary.

A number of these locations have leases that were historically paid out of the leasing budget in the Department of Administration, Division of General Services. Expenditures for the yearly lease agreements for office space in these locations will be charged directly to the division beginning in FY05. The division will use additional federal receipts derived from an increase in the indirect cost assessment on its federal contracts to absorb these expenditures.

Funding was transferred to this component during the FY04 Governor's Amended Budget. These funds originated from Wildlife Conservation to support the four PCNs transferred from Habitat Division. These four PCNs will not work exclusively on State's Rights issues and are therefore being transferred to the Sport Fish Habitat Component. Expenditures in the contractual line item in this component will be processed by RSA to Sport Fish Habitat to support staff who are assigned work related to wildlife habitat projects and issues.

All human resources and personnel services are being consolidated into the Division of Personnel in the Department of Administration. The mission of this consolidation is to provide all state agencies with standardized, consistent, and quality service in all areas of human resources and personnel. Costs associated with these functions will be aggregated, allocated, and billed to the user agencies equally or based on total authorized positions in the agencies depending upon the type of service.

In the FY 2005 budget, the Division of Personnel will be 100% funded by I/A Receipts. The general funds currently in the division's budget are transferred to departments whose anticipated costs are more than those departments currently have budgeted for human resources and personnel services:

Administration 103.5  
Corrections 151.0  
Education 7.0  
Fish and Game 183.8  
Health and Social Services 150.5  
Labor and Workforce Dev. 64.4

Military and Veterans' Affairs 94.5  
Public Safety 39.7  
Revenue 52.1  
Transportation 333.1  
Total 1,293.9

In addition there will be a general fund decrement in the Division of Personnel's budget of \$545.8 and decrements in the Departments of Community and Economic Development, Environmental Conservation, and Natural Resources. Overall savings are \$643.2.

Transfer of funds needed to bring personal services within vacancy factor guidelines	LIT	0.0	17.3	0.0	-17.3	0.0	0.0	0.0	0.0	0.0	0	0	0
The result of this line item transfer needed to bring personal services within vacancy factor guidelines is a reduction in support for a shared position in Dillingham (PCN 11-0452, Subsistence) from three (3) months to one (1) month and elimination of support for a shared position in Kotzebue (PCN 11-0420, Wildlife Conservation). We will also further reduce advisory committee expenses for publications and distributions.

1004 Gen Fund	-1,000.0	A portion of the leases occupied by the Department of Fish and Game were historically paid out of the leasing budget in the Department of Administration, Division of General Services (DGS). General funds were transferred to the department from DGS as a base adjustment, and are now being decreased. The department will absorb this general fund reduction by increasing the indirect cost rate that it assesses against its federal contracts to the maximum allowed by the federal government (currently negotiated at 10.9%). Federal fund increments are being requested for \$500.0 in both the Sport Fish and Wildlife Conservation components of the budget, and the funds will be used to pay for these lease costs.

CFEC's proposed budget eliminates a half-time hearing officer position and a part-time permit clerk position. Additionally, the one position budgeted with federal receipt authority is deleted because the PCN has been vacant in excess of one year, and no decrease in service is expected. These changes in staffing levels are expected to result in a 15% decrease in the rate at which hearing officer decisions on appealed permit applications are issued (from roughly 70 hearing officer decisions annually to 60); and will likely increase the turn-around time for issuing annual licenses and permits to fishermen by up to 30%, from three days to four days, during peak times (the months of May and June when that position would have been filled). The commission will continue to strive to maintain its most basic functions and services to the public and will monitor to determine and quantify specific impacts of budget and staffing reductions.
